

A nighttime photograph of a cityscape in Los Angeles. The image shows several tall skyscrapers with lit windows, some with signs like 'ERNST & YOUNG' and 'CARPENTERS'. In the foreground, there is a highway interchange with a sign for 'Santa Monica Blvd' and '1/4'. The overall scene is dark, with the city lights providing the main illumination.

### REGIONAL BREAKDOWN

As this year's FDI report has expanded to include all of California, it became clear that combining the counties into regions was necessary to highlight the diversity and concentration of FDEs throughout the state. The breakdown of the State of California into three distinct regions is illustrated in the adjacent map. Gathering best practices and historical regional definitions, the Bay Area region southern and northern boundary is Monterey County and Sonoma County, respectively, with the eastern boundary formed by the counties Merced, Stanislaus and San Joaquin. Southern California includes all counties south of Monterey, Kings, Tulare and Inyo. All other counties in the state are considered Greater California. You will notice throughout the report, LA County FDEs have been carved out to provide extra analysis for this area.
